Just what we needed.

Normally we're Michelin Green types, but someone gave us this Eyewitness/Umbria guide before a recent trip to Italy, and now I'm a fan of the approach. We used this guide daily making decisions on what parts of Umbria to tackle from our base in the small, central Umbrian town of Todi. Because Eyewitness includes a fair number of photos and illustrations, plus maps and charts, it helped a lot in weighing the many possibilities that exist in the region. This guide also includes restaurant and hotel recommendations although they are fairly limited and miss a couple of extraordinary eating places we found on our own. That lack notwithstanding, this kind of guide can lead you to places that are away from tourist haunts and therefore to generally better food and service. Eyewitness does provide pretty good historic, cultural and geographic commentary, but it's limited compared to Michelin. So if you're a serious student of history, art or architecture, you may want to supplement this book with something off the internet--increasingly abundant--or by picking up the ample material available in local tourist offices. Overall, this is an excellent guide and proved very helpful to us on our week-long stay in Umbria.

Can't beat these photos and floor plans. A little heavy to take along, but gives you a GREAT preview of what you will be seeing in Umbria
