Feminine Fables

Synopsis

Set against feminist discourse, this title looks at the iconography of the Indian woman. Traced over the century these images suggest an extraordinary transformation in imaging the Indian woman, as manifested in painting, photography, popular posters and classical cinema.

"... Feminine Fables is a work of dedication, labour and imagination. It provides an overview and understanding of the varied visual forms surrounding the fables of the feminine persona. Well produced and designed, it meshes a measure of academic discourse with plenty of visual pleasure for the lay reader. -- Malvika Karlekar, Biblio"
