Calgary, days trips, nightlife. A guide to Calgary

This is a must read for any visitor or tourist going through Calgary. It is an invaluable asset if you are visiting for the Calgary Stampede, relatives, or are there on business. It is a great reference and it is obvious that a lot of research and work has been put into writing it.

There are more and more things of amazement that are being created that simply can't be comprehended by most, yet paramount to the human condition is that the unknown must be reconciled! So, if you have some time, are looking for a challenge, and want a comprehensive and convincing crash course on the state of everything, read this book. I have read most of the classics, and most of the great philosophers. Her views are uncompromising. Her stories are brilliant. And above all she is a compassionate person, by a much truer form of the definition. I fear, though, it is much too late. Her philosophy's only problem, which was not brought up in this book and therefore doesn't affect the rating, is the part about the mushrooms in that temple as part of the initiation process and the accompanying Shiva Vedic chants. This book is marvelous. It completely changed the way I look at literature and life in general. Her narrative is a delicate, touching essay with

enough detail to outweigh your habit of waxing ethereal and finding meaning in the meaningless. You will one day become a meaningful, spiritual writer. I am sure that although you are part of the first generation raised without religion, you will find one. At the risk of dubbing this book "Chicken Soup for the Slacker," I am certain, or at least optimistic, that I received a very good sense of the dark, brooding, medieval atmosphere surrounding the epic; a sense that this story was told around the fires in dark huts in the cold north. Bravo Frances!
