# Beyond Good & Evil: Prelude To A Philosophy Of The Future

## Synopsis

Represents Nietzsche's attempt to sum up his philosophy. In nine parts the book is designed to give the reader a comprehensive idea of Nietzsche's thought and style: they span "The Prejudices of Philosophers," "The Free Spirit," religion, morals, scholarship, "Our Virtues," "Peoples and Fatherlands," and "What Is Noble," as well as epigrams and a concluding poem. Beyond Good and Evil is one of the most remarkable and influential books of the nineteenth century. This translation by Walter Kaufmann has become the standard one, for accuracy and fidelity to the eccentricities and grace of the style of the original. The translation is based on the only edition Nietzsche himself published, and all variant readings in later editions. This volume offers an inclusive index of subjects and persons, as well as a running footnote commentary on the text.

## Book Information

Paperback: 288 pages

Publisher: Vintage (December 17, 1989)

## Customer Reviews

Text: English (translation) Original Language: German

Represents Nietzsche's attempt to sum up his philosophy. In nine parts the book is designed to give the reader a comprehensive idea of Nietzsche's thought and style. With an inclusive index of subjects and persons.

The eBook and the version of the paperback showing the two eyes in a frame are not the Kaufmann translation. This translation is OK, but you should know that the product information is

incorrect. Additionally, the two versions I refer to use ALL CAPS instead of italics. Nietzsche loves his italics, especially in BGE. It's like he's screaming every other sentence.

I used this book for an intro to philosophy course, but the readings were so good that I had to hold onto it for my own personal library.

It's a challenging read if you're used to 5th grade news writing or never read anything longer than a twitter post. Fred is definitely NOT a fan of the trophies for everyone mentality!

Translators notes are great. Nice copy.

Perfectly as described! Great Seller!

product was as stated and arrived on time

It is the first time that I've read one of Nietzsche's books, and I have to say that it is staggering. I will not claim I understood it all. It would take much more than casual reading for that, but even so, I cannot recommend it enough.

I bought this as a companion to the audio book. I always do that so that I can read certain parts as I listen to the book because it helps me understand. This book is too information dense to listen to for me however. The number of thoughts/ideas per sentence is just too high and I'm going to have to read this one without listening to it. Perhaps I will be able to listen to it when I'm done reading. He's a profound thinker and I personally find many of Nietzsche's arguments moving and "meaningful" to this day. If you are a philosophy nerd like me I'm sure that you will like the book but be warned for my feeble mind it cannot be taken in while driving.
