# Kids Draw Baby Animals

## Synopsis

A child's guide to drawing baby animals. It contains step-by-step instructions and the lessons progress incrementally, starting with the basic head shape and anatomy and continuing through a wide range of stretching and action poses and with a variety of facial expressions. The volume also discusses how to infuse drawings with personality to make figures come to life.

## Customer Reviews

Sales of Christopher Hart's books now exceed 750,000 copies and his name has become synonymous with how-to-draw books.

The book contains very simple instructions and it is good for basic learners who want to learn how to draw baby animals

Shame someone felt upset that Christopher Hart has published animal variety drawing books along with specific animals drawing books. Seriously, would you not buy chocolates from a chocolate shop because they sell a variety of boxes of chocolates as well as boxes of just one kind of chocolate? Of course not! Christopher Hart gives you choices! If you want to learn a little bit about how to draw a variety of animals you can buy that book. If you just want to learn how to draw an extensive variety of dogs or cats, then you can just buy the book on that specific animal. In my opinion, Christopher Hart teaches the right way to draw. As does Preston Blair. I bought both books

and found that both authors can definitely draw, are extremely talented and wrote fantastic books that people can learn from. I hope this review was helpful!
