Customer Reviews

Quite simply, this is my go-to guide for all things California coast. It's written by people who know the cool places you really want to see, and not just a highlight of tourist traps. It's written so well in fact, that I often find myself reading it because it takes me away to my favorite place on Earth. You absolutely, positively must download or buy a copy of this book if you are going to the northern CA coast and want to make sure you see what's important to you.

packed with helpful info on planning any trips, some suggested itineraries, and lots of details about areas up and down the coast. There are even some photos here and there throughout the book, though you wouldn't buy this book hoping to get a book packed with full page color glossy photos, because it doesn't have them.

I bought this as a gift for my son. He found it helpful on his California trip!

Great book. Lonely Planet never fails.

Fairly short list of places to stay

this a fact filled book, but the font is tiny! and using it on your trip as a quick reference was difficult.

Brilliant book very informative.

Great book! Came in time for my vacation!
